

# QUALITY FEATURES OF UMH WATER TREATMENT

EXCERPTS FROM THE REPRODUCIBLE PHYSICAL EVIDENCE FOR THE EFFECTIVENESS OF UMH TECHNOLOGY

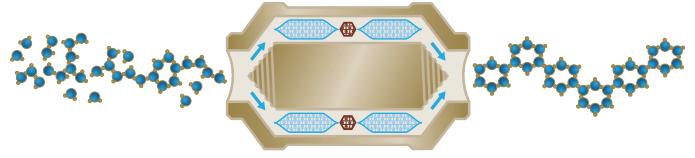

## RESTORING SPRING WATER QUALITY

Our well-being depends largely on nutrients in high-quality foods and ordered structures in drinking water. With UMH technology, an optimally vital and crystalline state is returned to the water. In this way, water is again available for hydration on a cellular level.

## DEGREE OF ORDER

**Water Crystal Photos by Dr. Emoto** show a significant improvement of the crystalline structure. The water restores its inherent spring water quality.

WITHOUT UMH

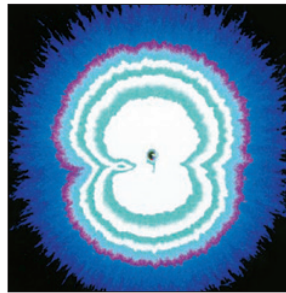

WITH UMH

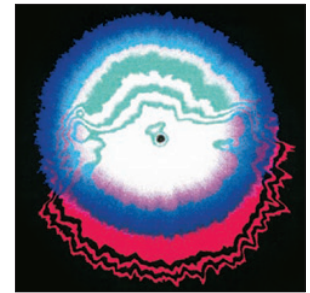

## BIOELECTRICAL CONDITION

UMH restores the original energetic quality of the water. The very distinct bioenergetic potential is still clearly measurable after several days according to the **Color Plate® - test according to Dr. Knapp**.

WITHOUT UMH

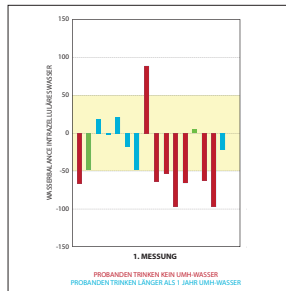

WITH UMH

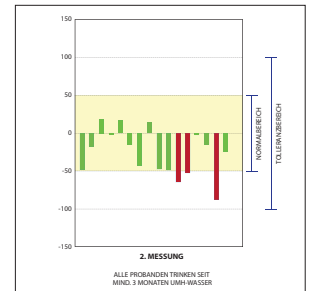

## CELL AVAILABILITY

Through the medically recognised **bioelectrical-impedance-analysis** it is shown that UMH-energized water provides optimum results in cell hydration in the extra- and intracellular space.

WATER NEEDS TO BE ABLE TO HYDRATE THE CELLS

NOW SERVING THE USA AND CANADA

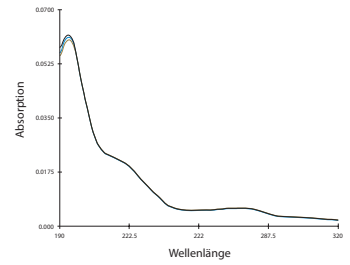

## FREQUENCY MEASUREMENTS

Scientifically recognized **UV, LF and RF measurements by Dr. Ludwig** confirm the elimination of a spectrum of frequency pollutants. The high storage capacity of biophotons demonstrates strong structuring of the water molecules. This has been demonstrated by the studies of **Prof. Dr. Popp**. In this way, UMH devices restore the original energetic quality of the water.

MEASUREMENTS FROM DR. LUDWIG

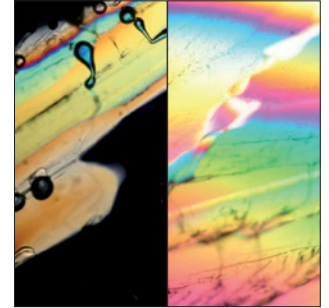

## SCIENTIFIC RESULTS AND METHODS

Water quality testings by **Dr. Kröplin University of Stuttgart, Dr. Doepp, DI Pfaffenbichler, Dr. Kilibaeva** and simple microscope photographs of lime composition show impressive results. **High frequency measurement by Dr. Kohfink-Kalagin** prove the excellent long-term stability and informational conductivity of UMH water.

WITHOUT UMH WITH UMH

## MEDICAL MEASUREMENTS

Measurements with the **Oberon® diagnostic system** show an increase in the compensatory response by 81%, with water treated with UMH. By **bioresonance measurements** on the meridian points (**according to Dr. Voll**) is the invigorating and supporting function of the water clear. Long-term metabolic studies also confirm the optimal hydration of the cells.

WATER WITH HEALING QUALITIES

OBERON DIAGNOSTIC SYSTEM

**Water - Comparison measurements by Dr Kohfink with EHM2000/WHFS7-4**

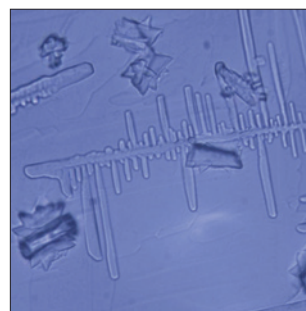

Medium	Impulses/sec fresh	Impulses/sec after 25 <sup>hrs</sup>	Bovis units
Distilled water (pure)	48	48	3,000
Tap water (Stuttgart)	19	19	5,350
Tap water (Augsburg)	23	23	5,960
Tap water (Munich)	22	22	7,900
Volvic water	28	28	13,800
Spring water from Canada	33	33	28,150
Grander water	36	25	24,200
"Healing water" (Lourdes)	44	44	27,360
UMH water 3/4"	49	49	37,550

BIORESONANCE

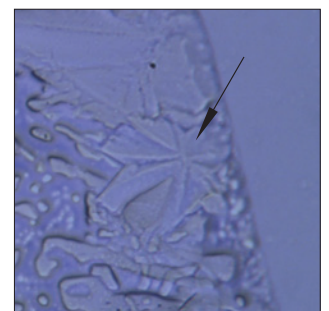

## SPAGYRIC MEASUREMENTS

The **crystal image analysis by Dr. Höfer** shows that water treated by UMH devices has returned to its natural crystalline form.

**UMH WATER GIVES LIFE**

For legal reasons, the company UMH and all of their brands offer no promise of healing. The devices cannot be a substitute for medical care, and at best can have a supporting effect. The listed experts report and information on the effects are not currently recognized by doctors of conventional medicine and scientists alike. In the field of alternative medicine, however, it gains much more importance. The use of UMH products should not result in the replacement of treatment for health problems by a doctor or medical practitioner.
